Introduction of DHSG Cable kit for Electronic Hook Switch (EHS) functionality with wireless headsets

Aastra announces the introduction and general availability of a DHSG Cable kit for the 6753i, 6755i, 6757i and 6757i CT Phones.

This cable kit allows the use of EHS compatible headsets with the phone models indicated above. Users can now answer/end calls while away from the phone and without the need for a motorized Handset Lifters.

Aastra recommends the following EHS compatible headsets for this solution:

GN/Jabra	Plantronics	Sennheiser
GN 9350 GN 9350e GN 9120 GN 9125	CS60 CS70N CS351N Voyager 510S	BW900
Requires a GN 14201-10 cable	Requires an APS-1 adapter box	Requires a TCI 01 adapter box

Additional models may be added to this list in the future. Please note that models listed above require a separate DHSG cable or adapter to be provided by the headset vendor. Please contact your headset vendor for additional details. Use of non-recommended DHSG headsets is at the customer's own discretion. DHSG cable can not be used in conjunction with an Aastra expansion module. Phones require software release 2.4 or higher.
